- Jira
- GitHub
- Postman

Projects

Threeposha and Vaccine Request and Distribution Management System

This is my final year project, which I am working on. The proposed attempt aims to improve the Threeposha and vaccination distribution and request management processes, which are now managed manually using a paper-based system. I introduce new business procedures to improve the system's efficiency and reliability.

Technology Stack

- Angular
- Angular Material
- SpringBoot
- Tailwind
